SUMMARY

I'm Murad Balazada, a dedicated React developer with 2 years of experience crafting dynamic user interfaces. I specialize in building robust admin panels and responsive designs, ensuring seamless functionality across all devices. With a keen understanding of the business side of front-end development, I focus on creating intuitive applications that align with strategic goals and drive efficiency. Constantly exploring the latest trends in web development, I strive to deliver innovative solutions that enhance user experience and empower businesses to succeed.

EDUCATION

Azerbaijan Technical University , Master Degree Information and Management in technical systems	09.2024 - Present
Azerbaijan State Oil and Industry University , Bachelor Degree Processing Automation Engineering	09.2020 - 06.2024

WORK EXPERIENCE

React Developer (Remote) , CoffeeMe	Aug 2024 - May 2025
<ul style="list-style-type: none">In the CoffeeMe , I developed an admin panel and partner app, focusing on managing the interaction between coffee shop owners and customers. I utilized React with Redux Toolkit Query to efficiently handle API calls.Real-time updates: Enabled real-time order and product updates, ensuring that coffee shop owners and customers always have up-to-date information.	
Front-end Internship (Full-time) , Caspian Innovation Center (CIC)	Feb 2024 - June 2024
<ul style="list-style-type: none">During my tenure at Caspian Innovation Center, I actively contributed to the development of multiple high-impact projects, including a fully functional CRUD and request management system with React. Furthermore, as part of my responsibilities, I was involved in preparing web-based presentations for key projects at SOCAR, effectively communicating technical insights to stakeholders.	

LANGUAGES

- Languages:** Azerbaijan (Native), English (Upper Intermediate) , Turkish (Upper Indermediate).

PROJECTS

[coffeeme.app](#)

- In the CoffeeMe , I developed an landing page, admin panel and partner app, focusing on managing the interaction between coffee shop owners and customers.

[bantik.az](#)

- A modern e-commerce platform with a responsive design and smooth animations. I built the front-end for both the public site and admin panel, managing a 12,000-product catalog via 1C.

[evoacademy.az](#)

- Built with React and Tailwind CSS, featuring a custom-designed front-end and admin panel. The panel enables easy management of teachers, courses, pricing, and blogs, with a Quill.js-powered blog system. The design is my own.

[valser.az](#)

- Built with React and Tailwind CSS, featuring a custom-designed front-end and admin panel. The design is my own.

[nostudio.az](#)

- I developed a creative, game-inspired website for a gaming company. Designed an immersive and dynamic interface that captures the essence of their games, ensuring an engaging user experience. The design is my own.

[ddw.az](#)

- Developed a healthcare website featuring a partner dashboard with radiology and laboratory pages, allowing management of patient data and records. Includes a separate admin panel for overseeing partner companies, patients, applications, checkups, and file management.
